Technologies I know

JavaScript • CSS • HTML • AngularJS • NodeJS • Git/Github • Express • SASS • Gulp • MongoDB

Projects

eCommerce Art Site - <https://rowans-art.herokuapp.com> May 2016

- An art site for a client that displays her art and will allow purchases.
- Uses the full MEAN stack with an emphasis in the Front-End development.

DevHousing - <http://159.203.195.67/> June 2016

- A housing management app for DevMountain to streamline the housing experience for both Admins and Students.
- Planned out and executed plans for Front-End and Back-End design/structure
- Uses the full MEAN stack and also implements SASS, Gulp and ES6.

Volunteer work

LDS missionary December 2013 - December 2015

- Served as a missionary in Guatemala for two years interacting with the people in the languages Spanish and Q'eqchi'.

Education

DevMountain May 2016 - June 2016

- Built full applications using the MEAN stack
- Focus on Front-End development
- Contributed to a team that delivered a housing management app for DevMountain

Experience

Crew Member - Wendy's October 2012 - November 2013

- Worked on various positions from taking orders from customers to preparing the food

Kitchen Staff - Boy Scouts of America Camp Tomahawk June 2012 - July 2012

- Worked on a team to maintain the kitchen in a clean and orderly fashion.
- Prepared and served meals to all the camp and staff members.
